1.0 INTRODUCTION

Montrose Environmental (Montrose) has prepared this Preliminary Assessment (PA) Report on behalf of the Town of Clinton for the property located at 63 Halstead Street, Block 16, Lot 21 in Clinton, Hunterdon County, New Jersey (the Site). The Site is developed with one building, the Clinton Community Center, baseball field/grandstand, basketball and tennis courts, and a playground. The Site has been owned by the Town of Clinton since 1921.

This PA is being completed in accordance with the NJDEP Technical Requirements for Site Remediation (Tech Regs), N.J.A.C. 7:26E, and the Preliminary Assessment Technical Guidance. Since the Site has had no operations, it is not subject to the Industrial Site Recovery Act (ISRA, N.J.A.C. 7:26B).

A Topographic Map showing the Site location is presented as Figure 1. A tax map is presented as Figure 2. The total Site area is 4.03 acres. The Site Plan, Figure 3, presents the Site features and potential Areas of Concern (AOCs). The NJDEP PA Checklist and owner questionnaire are included in Appendix I. Photographs of the Site are presented as Appendix II.

1.1 Purpose

This PA has been prepared in accordance with the NJDEP's March 2018 Preliminary Assessment Technical Guidance document, and Technical Requirements for Site Remediation (TRSR; N.J.A.C. 7:26E). The PA has been prepared for submission to the NJDEP Green Acres Program grant application under the Jake's Law Program for playground renovations. The purpose of this assessment is to identify *Areas of Concern* (AOCs) as defined by N.J.A.C. 7:26E-1.8 as follows:

An area of concern is defined as any existing or former distinct location or environmental medium where any hazardous substance, hazardous waste, or pollutant is known or suspected to have been discharged, generated, manufactured, refined,

transported, stored, handled, treated, or disposed, or where any hazardous substance, hazardous waste, or pollutant has or may have migrated, including, but not limited to, each current and former:

1. Storage tank and appurtenance, including, without limitation each:

- i. Above ground or underground storage tank and silo;
- ii. Rail car;
- iii. Piping, above and below ground pumping station, sump and pit; and
- iv. Loading and unloading area;

2. Storage and staging area, including each:

- i. Storage pad and area;
- ii. Surface impoundment and lagoon;
- iii. Dumpster; and
- iv. Chemical storage cabinet or closet;

3. Drainage system and area, including, without limitation each:

- i. Building floor drain and piping, sump and pit, including each trench and piping from each sink that potentially receives process waste;
- ii. Roof leader (when process operations vent to roof);
- iii. Drainage swale and culvert;
- iv. Storm sewer collection system;
- v. Storm water detention pond and fire pond;
- vi. Surface water body;
- vii. Leach field; and
- viii. Dry well and sump;

4. Discharge and disposal area, including, without limitation each:

- i. Area of a discharge pursuant to N.J.A.C. 7:1E;
- ii. Waste pile as defined by N.J.A.C. 7:26;
- iii. Waste water treatment, collection and disposal system, including, without limitation, each, septic system, seepage pit and dry well;
- iv. Landfill;
- v. Landfarm;

- vi. Sprayfield;
 - vii. Incinerator; and
 - viii. Historic fill material area or any other fill area;
5. Other areas of concern, including, without limitation each:
- i. Electrical transformer and capacitor;
 - ii. Hazardous substance storage or handling area;
 - iii. Waste treatment area;
 - iv. Discolored area or spill area;
 - v. Open area away from production operations;
 - vi. Area with stressed vegetation;
 - vii. Other discharge area;
 - viii. Underground piping including industrial process sewer;
 - ix. Compressor vent discharge;
 - x. Non-contact cooling water discharge;
 - xi. Area that may have received floodwater or stormwater runoff from any area of concern; and
 - xii. Any area suspected of containing contaminants;
6. Environmental medium, including:
- i. Ground water;
 - ii. Surface water;
 - iii. Sediment;
 - iv. Soil, including soil vapor pore spaces; and
 - v. Air.

The presence of an AOC at a Site does not necessarily mean that further investigation is necessary. Pursuant to N.J.A.C. 7:26E-3.2(a)6, a recommendation is to be made for each AOC, supported by written rationale, that either (a) additional remediation is required because the area is potentially contaminated or there is an order of magnitude change in an applicable remediation standard and the prior remediation is no longer protective of the public health and safety and the environment because it is not in compliance with the standard applicable at the time of the

comparison; or (b) additional remediation is not necessary because the AOC is not suspected to contain contaminants at concentrations above the applicable remediation standard or criterion.

The Scope of Services for this PA included the following tasks:

- Site and vicinity reconnaissance;
- Preparation of Site and vicinity description and physical setting summary;
- Historical source review and description of historical Site conditions;
- Interviews with owners, operators, and/or occupants of the Site, and/or local officials;
- Review of environmental databases and regulatory agency records;
- Review of previous environmental reports/documentation, as applicable;
- Preparation of a report summarizing findings, opinions, and conclusions.

The following Areas of Concern (AOCs) were identified during the course of this investigation:

- AOC-1: Former 550-Gallon Unregulated Heating Oil Underground Storage Tank
- AOC-2: Community Center Building Sumps
- AOC-3: Grandstand Floor Drains and Dry Well
- AOC-4: Historic Farmland.

The AOCs are further described in Section 5.0 and their locations are shown on Figure 3.

2.0 PHYSICAL SETTING

2.1 Site Location and Use

The Site is located at 63 Halstead Street, Block 16, Lot 21 in Clinton, Hunterdon County, New Jersey (the Site). The Site is developed with one building, the Clinton Community Center, baseball field, basketball and tennis courts, and a playground. The lot is irregularly shaped and occupies approximately 4.03 acres. A copy of the municipal tax listing is included in Appendix III.

The surrounding area consists of a combination of residential, county, and natural lands. More specifically:

- North – Hunterdon County North Branch Library
- West – Spruce Run Tributary and Spruce Run Reservoir
- South – Residential properties along Rachel Court
- East – Halstead Street and residential properties.

2.2 Regional and Site Geology

Based on a search of NJ Geoweb (<https://www.state.nj.us/dep/gis/geoweb splash.htm>) the Site is situated in the Piedmont Physiographic Province. More specifically, the Site is located in the Lower Part of the Beekmantown Group, consisting of dolomite and minor limestone. According to the United States Department of Agriculture Soil Conservation Service (USDA SCS), the site soils are classified as Washington loam, consisting moderately well drained loam with moderately coarse textures. Site-specific geology was not available for this investigation.

2.3 Fill Material

Based on NJ-Geoweb, the Site is not mapped as historic fill. No fill was identified during the Site inspection. Historic Fill was mapped to the northeast of the Site under Route 31 and the northwest of the Site along Spruce Run Reservoir. NJDEP Geoweb maps are included in Appendix IV.

2.3 Hydrology

The Site elevation is approximately 222 feet above sea level. Based on the review of topographic maps, the Site area is surrounded by rivers to the west, south and east. Therefore, the groundwater flow direction could not be determined based on this information. Depth to water was not reported for the Site. The Site is located in multiple Tier 2 and 3 community wellhead protection areas.

2.4 Surface Water

The Spruce Run tributary adjoins the Site to the west and the South Branch of the Raritan River is approximately 235 feet east of the Site. The Spruce Run Reservoir is located to the northwest.

2.5 Wetlands

Wetlands were not mapped on the Site or surrounding properties.

2.6 Utilities

The Site is connected to the following utilities:

- Clinton Water Department
- Town of Clinton Sewer Service
- Elizabethtown Gas, and
- Jersey Central Power & Light (JCP&L).

Both natural gas and electric meters were observed on the exterior of the Community Center building. A water meter was observed in the basement of the Community Center. A water manhole was also observed near the baseball grandstand, likely serving the locker room.

3.0 FILE REVIEW

3.1 Preliminary Assessment Data Gathering

General data gathering for this report was completed via a review of reasonably ascertainable records available for the Site. This report includes records utilized during data gathering. Records deemed relevant for the purposes of documenting areas of concern identified in this Preliminary Assessment have been included as appendices where noted; however, the appendices may or may not include all records reviewed during the data gathering process. The file review consists of local and state files, deeds, and aerial photos. A summary of the file review is provided below:

3.2 Title Records

The Site is located on Lot 21 on Block 16. Property ownership history was determined from available information from the Open Public Records Search System ([Open Public Records Search System \(monmouth.nj.us\)](https://monmouth.nj.us)), municipal information, and news articles. Based on a NJ Department of Conservation and Economic Development map dated February 1958, the Site was originally composed of the three parcels deeded to the Clinton Community Recreation Association Inc:

- Tract I – Book 343, Page 541 on December 5, 1921
- Tract II – Book 383, Page 58 on March 26, 1930, and
- Tract III – Book 383, Page 58 on March 26, 1930.

Various newspaper articles indicated that the Site was acquired by the Town of Clinton from the Gebhardt family in 1929.

Copies of property tax information are provided in Appendix III. The map referenced above is included in Appendix I.

3.3 Current and Historic Site Uses

The Site currently consists of Lot 21 on Block 16 located on the west side of Halstead Street. Historically, the Town of Clinton acquired the property from the Gebhardt family in 1921. Prior to 1921, the property was reported to be a farm and the Site building was a barn. The baseball field is known as Gebhardt field, which was named after William C. Gebhardt, a local attorney who became a New Jersey State Senator and Clerk of the NJ Supreme Court in the early 1900s. Topographic maps from 1890 through 1905 do not show any development on the Site. On the earliest aerial photograph from 1931, the Community Center building, the grandstand, and baseball field are visible. The 1942 and 1943 topographic maps identify the Site building as the Town Hall. The Community Center hosts town events, exercise classes (martial arts, dance and yoga), voting (on Election Day) and basketball games. The exterior of the property contains a baseball field on the western side, basketball court (added in early 2000s) on the north side of the building, tennis court (added by 1970) at the southern end of the Site, and the playground (built in 1990s) along Halstead Street between the tennis court and the parking lot.

3.4 Aerial Photographs

Aerial photographs of the Site and its surrounding area were provided by Environmental Data Resources (EDR) for the following years: 1931, 1939, 1951, 1961, 1970, 1974, 1983, 1985, 1992, 1995, 2006, 2010, 2015, and 2019.

Year	Description
1931-1939	The Site appears developed with one commercial building (Community Center) and an additional structure (baseball grandstand) on the northern portion of the Site. A baseball diamond and grass-covered area makes up the remainder of the Site. Halstead Street borders the Site to the east. Residential properties are located adjacent to the east and further south-southeast. A church is also present to the south-southeast. Agricultural land adjoins the Site to the south and grass-covered land adjoins the Site to the north. Grass, shrubs, and a creek are visible directly west of the Site. An additional water body is visible to the east and a cemetery and Route 31 are present to the northeast. A large farm/agricultural related property is visible to the far north along with some surrounding agricultural land. Center street is present to the far south and mixture of commercial and residential properties are visible.

1951	A driveway is visible on the southeastern portion of the Site and a parking lot appears surrounding the larger on-Site building. Additional residential and commercial development is visible to the far south-southeast.
1961	The Site remains similar to previous aerials. An oval-shaped track is visible on the adjoining the property to the north. Additional residential homes appear adjacent to the east. The large farm/agricultural related property to the north appears cleared of most structures; two large silos are still visible. An agricultural property with three large structures (1 residential, 2 greenhouse) appears to the far northeast. Additional commercial development is visible to the far southeast along New Street and Old Highway 22. Route 31 appears to have expanded.
1970-1974	The Site remains similar to previous aerials with the exception of a tennis court in the southeast corner of the property. Additional residential homes appear adjacent to the east. Land clearing activities are visible to the west-northwest. The creek to the west has been diverted with the creation of Spruce Run Reservoir. A residential neighborhood is visible to the far southwest and a school is present to the far southeast. In 1974, a small structure (dugout) appears west of the covered bleachers on the Site. Residential apartments appear adjacent to the school to the far southeast.
1983-1985	The Site remains similar to previous aerials. Two commercial buildings appear on properties to the northeast of the Site. A residential neighborhood (River Bend Rd) also appears to the far northeast. The remainder of the surrounding properties remain similar to previous aerials.
1992-1995	A playground appears on the Site between the tennis court and Community Center. A residential neighborhood appears slightly south of the Site (Rachel Ct and Water St.). A large retail store appears to the far northeast, as well as a smaller commercial structure (restaurant).
2006-2019	The Site is developed with a fenced basketball court to the north of the Community Center. A library adjoins the Site to the north. Halstead St is developed with a round-a-bout to the far north, adjacent to the west of the large commercial shopping center. In 2010, an apartment building adjoins the library to the north. In 2019, a hotel appears to the northeast of the Site, east of Route 31.

EDR Aerial photographs are included in Appendix V.

3.5 Sanborn® Fire Insurance Maps

A request for Sanborn® maps was made to EDR. Sanborn® maps were not available for the Site or surrounding area. The Sanborn® map report is included in Appendix V.

3.6 Historic Topographic Maps

Historical topographic maps were provided by EDR. Maps were obtained for the years 1890, 1898, 1900, 1905, 1942, 1943, 1954, 1970, 2014, 2016, and 2019 for the target quads of High Bridge, Pittstown, Cakepoulin Creek, and Raritan.

Beginning in 1890, Halstead Road abuts the Site to the east. Spruce Run and another creek are visible to the west and east. A rail line is visible to the south and to the far northeast. The Site is vacant in 1905 and residential properties are visible adjacent to the east along Halstead Street. A building is depicted on the Site on the 1942 and 1943 topographic maps and is labeled “Town Hall”. Three (3) cemeteries are depicted surrounding the Site to the north and east on the 1952 map. In 1970, a reservoir is depicted to the northwest.

Topographic Maps are included in Appendix V.

3.7 City Directories

A request was made to EDR to search City Directories (i.e., business directories, cross reference directories, and telephone directories) for the Site. Directories from 1980 through 2020 were reviewed. The Clinton Community Center was identified at 63 Halstead Street in 2017 and 2020. Surrounding properties were listed as residential and the library.

City Directories are included in Appendix V.

3.8 State and Local File Review

Local File Review

An Open Public Records Act (OPRA) request was submitted to the Town of Clinton on December 19, 2023. The following files were received:

- Property record and appraisal card dated 1990 indicating the property was supplied with electric, public water and sewer services. The property also contained two dugouts, bleachers, a cement locker room, and one tennis court with a 10-foot chain link fence.
- Construction permits for electrical work, renovations/repairs to grandstand and baseball dugouts, updates to bathrooms, a pole tent for summer recreation program, and closure in place for a 550-gallon underground heating oil tank in 1998.
- Fire Code Violations Reports from 2004 through 2023 – several required reinspection of fire extinguishers, replacement of battery backups in exit signs, repair or replace emergency lights, installation of carbon monoxide detectors, and clearing exit pathways.

Copies are included in Appendix VI.

An OPRA request was also submitted to the Hunterdon County Health Department on December 19, 2023. The following file was received:

- The Non-Regulated UST Flow Sheet for Tank Pulls - This form lists one 550-gallon fuel oil tank was abandoned in place by Stem Brothers. The Site assessment was completed on August 7, 1998 and showed the tank was cleaned out and no holes or water were visible in the tank.

A copy is included in Appendix VI.

NJDEP

The Site was not listed on NJDEP Dataminer. An OPRA request was submitted to the NJDEP on December 19, 2023. The NJDEP responded that no records were identified.

File review documents are included in Appendix VI.

Regulatory Databases

The Site was not listed on any regulatory databases. The EDR report identified the following two sites within 1,000 feet of the Site:

- Hunterdon County North Branch Library, located at 65 Halstead Street (adjoining to the north) was listed on the NJEMS, AIRS, and FINDS databases for an air permit for a boiler.
- Clinton United Methodist Church, located at 12 Halstead Street (approximately 906 feet to the south/southeast) was listed on the VCP, BROWNFIELDS, NJEMS, and NJ Release databases. Case # 05-08-29-1124-14 was reported and the current status is listed as closed.

The EDR Report listed seven “orphan” sites that were considered unplottable or not associated with a specific address. Two listings appeared to be on or near Halstead Street. Montrose reviewed these listings, and neither appeared to be in reference to the Site.

Regulatory database reports are included in Appendix V.

3.9 Order of Magnitude

In accordance with the NJDEP’s *Order of Magnitude Guidance (Updated May 2021)*, order of magnitude provisions were established by the Brownfield Act, New Jersey Statutory Authority (N.J.S.A.) 58:10B-12j and 13e and are implemented through several provisions of the Tech Regs. For sites with an Unconditional No Further Action (NFA), the order of magnitude evaluation must be conducted whenever a site “re-enters” the Site Remediation Program.

The purpose of the order of magnitude evaluation is to compare contaminant concentrations remaining in an area of concern, for which a final remedial document was filed or issued, to the applicable remediation standards at the time of comparison. The data review determines whether contaminant concentrations remaining at the site or area of concern are above applicable standards at the time of comparison by more than an order of magnitude (i.e. greater than 10 times the current standards).

NJDEP Groundwater Quality Standards (GWQS) were updated in November 2005 with more recent changes applicable to select compounds including 1,4-dioxane and other minor changes in

March 2022. The Indoor Air, Soil Leachate, Soil – Migration to Groundwater, Soil – Ingestion/Dermal, and Soil-Inhalation Standards were updated in May 2021.

Based on a review of available records, no prior sample data is known to have been collected at the Site and no NFA or Response Action Outcome (RAO) letters have been issued. Therefore, no order of magnitude evaluation can be completed.

3.10 Protectiveness Evaluation of Approved Remedies

No current engineering or institutional controls are established for the property; therefore, a protectiveness evaluation was not completed.

3.11 Contaminants of Emerging Concern Evaluation

In accordance with N.J.A.C. 7:26E, contaminants of emerging concern (CECs), if discharged to the waters or onto the lands of the State, are pollutants that must be remediated. The following compounds are currently identified by the NJDEP as contaminants of emerging concern:

- Per- and Polyfluoroalkyl Substances
- 1,4-Dioxane
- Perchlorate
- 1,2,3-trichloropropane.

Based on Montrose's review of the Site history and known uses of the CECs in various manufacturing processes, their presence on the Site is not likely. No historical operations or manufacturing processes have taken place at the Site that would indicate the use of these compounds.

4.0 SITE INSPECTION

On December 20, 2023, the Site inspection was conducted by Montrose staff.

4.1 Site Observations

The Site consists of Block 16 Lot 21. Halstead Street (County Route 513) abuts the Site to the east, running north to south. The Clinton Community Center is located on the northeast portion of the Site. The Community Center building is a two-story structure with an attic and a basement. The building occupies approximately 4,242 ft². The first floor contains the gym, kitchen, and two bathrooms. The second floor contains storage and a lounge. The basement contains a sump pump, water heater, furnace, and electrical panels. A paved parking lot is located on the south and west sides of the building. A grass area is located northeast of the building. One pole-mounted transformer labeled as Non-PCB was located to the northwest of the Site on the opposite side of Halstead Street. No transformers were observed on the Site.

A fenced-in basketball court is located on the northern side of the Community Center. A baseball field and wooden grandstand (approximately 1,254 ft²) are located west of the Community Center. Three (3) floor drains were noted beneath the wooden bleachers which reportedly drain to a dry well slightly northwest of the stands.

A chain-link fence runs along the entire western and southern border of the Site. A playground occupying approximately 12,400 ft² is located south of the Community Center. It is made up of a combination of sand, mulch, concrete, and concrete pavers. A small pavilion, picnic tables, water fountain, and trash receptacles were observed in the playground area. Additionally, a fenced tennis court is located to the south of the playground. Some trees and small shrubs were also observed in this area.

Photographs of the Site are presented as Appendix II.

5.0 POTENTIAL AREAS OF CONCERN

Based on the Site inspection and review of historic documents, the following AOCs were identified:

AOC-1: FORMER 550-GALLON UNREGULATED HEATING OIL UST

Information provided by both the Town of Clinton and the Hunterdon County Health Department indicate that one 550-gallon heating oil tank was abandoned in place on August 7, 1998. The UST was closed by Stem Brothers of Milford, NJ. The County Health Department certified that the tank was cleaned out and no holes of water were present in the tank on August 7, 1998. The UST was not regulated, and soil sampling was not required unless a release was found. Therefore, no incident records were reported to NJDEP. During the recent Site visit, two stick-up pipes were observed on the north side of the Community Center building which could have been tank fill and vent pipes (See photo log). Based on this location, there was only a narrow path between this side of the building and the basketball court, which is likely the reason the UST was abandoned in place. Since the former UST was located outside of the proposed playground and records indicate it was properly abandoned, no further investigation is recommended.

AOC-2: COMMUNITY CENTER BUILDING SUMP

One sump pump was observed in the basement of the Community Center. No evidence of spills or releases were observed near the sump. No further investigation is recommended.

AOC-3: GRANDSTAND FLOOR DRAINS AND DRY WELL

Three floor drains were observed beneath the baseball grandstand. The drains reportedly direct surface runoff to a drywell located to the northwest of the grandstand. No visible surface markers were observed for the exact location of the dry well. No further investigation is recommended.

AOC-4: HISTORIC FARMLAND

Based on historical information provided by the Town of Clinton, the Site was a farm before deeded to the town in 1921. The current Site building was formerly a barn. Based on the historical agricultural use and the potential use of pesticides, surface soil sampling is recommended in accordance with the NJDEP *Historically Applied Pesticide Technical Guidance*, Version 3.1, dated February 2022.

6.0 CONCLUSIONS

Montrose Environmental (Montrose) has prepared this Preliminary Assessment (PA) Report on behalf of the Town of Clinton for the property located at 63 Halstead Street, Block 16, Lot 21 in Clinton, Hunterdon County, New Jersey (the Site). The Site is developed with one building, the Clinton Community Center, baseball field/grandstand, basketball and tennis courts, and a playground. The Site has been owned by the Town of Clinton since 1921. This PA is being completed in accordance with the NJDEP Technical Requirements for Site Remediation (Tech Regs) N.J.A.C. 7:26E and the Preliminary Assessment Technical Guidance. The PA has been prepared for submission to the NJDEP Green Acres Program grant application under the Jake's Law Program for playground renovations. The proposed plans for the playground are included in Appendix VII. No further investigation is recommended for the Areas of Concern (AOCs) described in Section 5.0, except for those listed below:

- AOC-4: Historic Farmland.

Due to the Site's reported use as a farm prior to 1921, surface soil sampling is recommended in accordance with the NJDEP *Historically Applied Pesticide Technical Guidance*, Version 3.1, dated February 2022.

PHASE I ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE

- *Engineering*
- *Remediation*
- *Consulting*

Written responses to this questionnaire should be completed prior to our site visit by an individual familiar with the site. For those questions that are non-applicable, please respond “N/A”. If you have any questions about how to answer any of the questions, please call Environmental Alliance at (302) 234-4400. If additional pages for response are necessary, please attach hereto and reference same to the appropriate question number. This document, and your written response to same, will be an exhibit in the final report and/or provided to our client.

A. GENERAL

1. Name of person, title and telephone number completing this questionnaire:

Name _____ Telephone No. _____

Title _____

Signature _____ Date _____

2. How long has the preparer been familiar with the site or facility? If less than five (5) years, who held the position prior?

Since 2012

B. PROPERTY DESCRIPTION AND ANALYSIS

1. Land

- a. Legal Site Address

- b. Block _____ Lot _____ County _____

- c. Size of Parcel? _____ Acres

- d. Shape of Parcel? ☐ Rectangular ☐ Irregular ☐ Other

- e. What is your facility Standard Industrial Classification (SIC) number or North American Industry Classification System (NAICS) number?
NAICS # - 921130 (<https://www.census.gov/naics/?input=92&chart=2022&details=921130>)

- f. Describe the current site use(s).

- g. Describe any known previous use of the current site.

- h. Were there any buildings on the property prior to the existing buildings? Yes ☐ No ☐ DK ☐

What were they?

Are any portions of the buildings remaining? Yes ☐ No ☐ DK ☐

If so, please describe.

- i. Are you in possession of a title report and survey for the site? Yes ☐ No ☐ DK ☐

If so, please provide copies if readily available.

- j. Does or has any person, or company other than the owner occupy the entire site or a portion of the site? Yes ☐ No ☐ DK ☐

If so, and the property is used for purposes other than residential, please provide a tenant list.

In addition, please provide a list of former owners/tenants/occupants dating back to the time the buildings were first constructed. Please include time periods and their type of operations.

- k. Are there any open surface waters or wetland areas on or adjacent to the site or any indication that there is a high water table? Yes ☐ No ☐ DK ☐

If so, where?

1. Is there a well on the site? Yes ☐ No ☐ DK ☐
- If yes,
1. What is the depth of the well?
2. What type of well is it?
- Drinking water ☐
- Irrigation ☐
- Monitoring ☐
- Dry Well ☐
3. Are these wells the primary source of drinking water? Yes ☐ No ☐ DK ☐
4. Have contaminants in excess of governmental guidelines been identified in the water? Yes ☐ No ☐ DK ☐
- m. Was or is there a septic system on the Subject property? Yes ☐ No ☐ DK ☐
1. If so, where are the tank and disposal fields located?
2. Is the septic system currently in use?
3. Is or was the septic system ever used for the disposal of liquid processing waste?
- If so, please describe.
4. Are or were any floor drains connected to the septic system?
- n. Is or has the property or any adjoining properties been used for industrial purposes, or as a gasoline station, auto repair shop, junkyard, or landfill? Yes ☐ No ☐ DK ☐
- If so, please explain.

o. Has fill of unknown origin or from a contaminated site been brought onto the Subject site? Yes ☐ No ☐ DK ☐

p. Are there currently or has there previously been waste treatment or disposal pits, ponds, or lagoons on or adjacent to the Subject site? Yes ☐ No ☐ DK ☐

2. Improvements (buildings) – This includes all buildings. ☐ N/A

a. Describe the size (square foot) of the existing buildings.

b. How old are the buildings?

c. Do the buildings have a basement? Yes ☐ No ☐ DK ☐

d. Have there been any additions/renovations? Yes ☐ No ☐ DK ☐

If so, when?

e. Describe the heating and cooling system.

f. Who provides the following utilities?

Water: _____

Sanitary Sewer: _____

Solid Waste Removal: _____

Natural Gas: _____

Electricity: _____

g. Does the subject site contain an oil or gas-fired boiler or furnace? Yes ☐ No ☐ DK ☐

If so, what is the fuel type?

h. Are there any floor drains on the site? Yes ☐ No ☐ DK ☐

If so, where do they discharge to?

3. Previous Studies

Do you have any knowledge of any previously prepared Environmental Assessment Reports or testing conducted on the site, whether it be for the owner or for others? If so, who prepared such report(s), when were they prepared, and who conducted testing, if any?

Yes ☐ No ☐ DK ☐

☐ I have no knowledge of any environmental related studies or reports prepared on the Subject site either for myself, the company I represent, my attorneys, or others.

4. Facility As-Built Drawings and Site Plans

Do you have copies of facility as-built drawings or site plans? Yes ☐ No ☐ DK ☐

If so, please provide us with paper and electronic copies (if available).

C. REGULATORY

1. Do you have any knowledge of pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property?

Yes ☐ No ☐ DK ☐

If so, please state the circumstances.

2. Are you aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?

Yes ☐ No ☐ DK ☐

If so, please explain.

3. Is any neighboring property engaged in the storing, transporting or disposal of hazardous waste, or chemicals? Yes ☐ No ☐ DK ☐
4. Have there been any spills or releases of hazardous substances or petroleum products at the site? Yes ☐ No ☐ DK ☐
5. Have there been any remedial actions performed at the site? Yes ☐ No ☐ DK ☐
6. Do you have any environmental permits for any of the following?

National Pollutant Discharge Elimination System (NPDES)

Yes ☐ No ☐ DK ☐

Resource Conservation and Recovery Act Generator (RCRA) No.

Yes ☐ No ☐ DK ☐

EPA ID No. _____

Yes ☐ No ☐ DK ☐

Underground Storage Tank (UST) Facility ID

Yes ☐ No ☐ DK ☐

Petroleum Bulk Storage (PBS) Facility ID

Yes ☐ No ☐ DK ☐

Stormwater Discharge

Yes ☐ No ☐ DK ☐

Air Pollutant Discharges

Yes ☐ No ☐ DK ☐

Community Right-to-Know/SARA Title III Filings

Yes ☐ No ☐ DK ☐

D. ASBESTOS

1. Do you have any knowledge if an inspection for asbestos was ever performed on the Subject site? Yes ☐ No ☐ DK ☐

If so, who performed the inspection and when?

2. Do you have any knowledge of any materials or substances on the site that are known or suspected to contain asbestos? Yes ☐ No ☐ DK ☐

If so, what materials and where are they located?

3. Has any asbestos been removed from the Site? Yes ☐ No ☐ DK ☐

If so, by whom?

4. Does the building have:

a. Any spray-on fireproofing? Yes ☐ No ☐ DK ☐

b. Insulation on piping, boilers, tanks, chillers, or other mechanical equipment? Yes ☐ No ☐ DK ☐

c. Any transite used in cooling towers, exterior walls, ceilings, fascia panels, etc.? Yes ☐ No ☐ DK ☐

d. Vinyl asbestos floor tile? Yes ☐ No ☐ DK ☐

e. Suspended acoustical ceiling tiles? Yes ☐ No ☐ DK ☐

f. A built-up or rolled roofing system? Yes ☐ No ☐ DK ☐

E. LEAD

1. Are you aware of any lead-based paint (LBP) applications on the site? Yes ☐ No ☐ DK ☐

2. Has LBP testing been conducted? Yes ☐ No ☐ DK ☐

3. Have there been any reported incidences of children with elevated blood levels residing at the site? Yes ☐ No ☐ DK ☐

4. Have any LBP abatements been conducted? Yes ☐ No ☐ DK ☐

5. Has the water been tested for lead? Yes ☐ No ☐ DK ☐

If so, what were the results?

F. POLYCHLORINATED BIPHENYLS (PCBs)

1. Are there any onsite electrical transformers (either pad or pole-mounted)? Yes ☐ No ☐ DK ☐

If so, are they dry type or liquid cooled?

2. Do any of these transformers contain PCBs? Yes ☐ No ☐ DK ☐

Who owns these transformers and where are they located?

3. Did any onsite transformers once contain PCBs, but later had the coolant replaced? N/A Yes ☐ No ☐ DK ☐

4. Is there any hydraulic equipment onsite? Yes ☐ No ☐ DK ☐

G. STORAGE TANKS

1. Are there any registered or unregistered (active or inactive) Underground Storage Tanks (UST) or Aboveground Storage Tanks (AST) located on the premises? Yes ☐ No ☐ DK ☐

If so, please fill out the following schedule:

Location	Size (Gal.)	AST or UST	Contents	Age	Construction Material	Registered (Y/N)	Active or Inactive

2. Do you have any knowledge of any tanks that once existed on the Subject site whether such tanks were removed or abandoned? Yes ☐ No ☐ DK ☐

If so, by whom, and when?

3. Have any of the existing in-use tanks been tested to determine whether any leakage has occurred? Yes ☐ No ☐ DK ☐
N/A - No existing tanks are in-use.

If so, when?

4. Are there any pipes or UST access ways protruding from the ground, retaining walls, or buildings? Yes ☐ No ☐ DK ☐

H. HAZARDOUS MATERIALS

1. Are any hazardous materials, chemicals, or substances stored onsite used for any manufacturing processes, automotive repair or for pest control (pesticides)? Yes ☐ No ☐ DK ☐

If so, please provide a schedule of same (please attach separate page if more room is required).

Substance	Quantity	Location

2. Are there physical signs of any of the following on the property?

- | | |
|---|--|
| Drums | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Stressed Vegetation/Staining/Odors | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Oily Sheens on Water | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Discarded Batteries | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Silos | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Rail Spurs or Sidings | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Above or Below Ground Pump Stations | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Sumps | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Rail Truck Loading/Unloading Areas | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Storage Pads and Areas | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Dumpsters | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Chemical Storage Cabinets/Closets | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Process Area Sinks/Piping that Receive Waste | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |
| Roof Leaders when Process Operations Vent to Roof | Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/> |

Drainage Swales/Culverts	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Storm Sewer Collection Systems	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Stormwater Detention Ponds/Fire Water Ponds	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Incinerators	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Open Pipe Discharges	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Compressor Vent Discharges	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Non-Contact Cooling Water Discharges	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Debris Piles	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Other	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>

If yes, please describe:

3. To the best of your knowledge, do any of the following operations take place on the Site or have ever taken place on the Site?

Dry Cleaning:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Battery Storage/Sales:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Paint Storage/Sales:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>

Photo or X-Ray Finishing:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Electronic Equipment Assembly or Manufacturing:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Solvent Storage/Sales:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Chemical Manufacturing/Sales:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Automobile Storage, Repair, or Disposal:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Agriculture:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>
Medical or Dental Office:	Yes <input type="checkbox"/> No <input type="checkbox"/> DK <input type="checkbox"/>

If yes, please describe:

4. Are, or have any, adjoining sites been used for any of the preceding operations? Yes ☐ No ☐ DK ☐

If yes, please describe:

5. Are there any hazardous or medical waste or fluids generated or used on the site that an outside service for their periodic pick-up and removal? Yes ☐ No ☐ DK ☐

If so, please provide name, address and telephone number of the disposal company and the facility generating the waste.

6. Please provide all available information from your or your client's records including, but not limited to, documentation in connection with any pending or threatened public or private proceedings or litigation with respect to environmental liability, environmental permits and permit applications, underground and aboveground tank registration and information (including removal and testing of such tanks), spill information and compliance information and programs.

☐ CERTIFICATE OF OCCUPANCY

This serves notice that said building or structure has been constructed in accordance with the New Jersey Uniform Construction Code and is approved for occupancy.

☒ CERTIFICATE OF APPROVAL

This serves notice that the work completed has been constructed or installed in accordance with the New Jersey Uniform Construction Code and is approved. If the permit was issued for minor work, this certificate was based upon what was visible at the time of the inspection.

☐ TEMPORARY CERTIFICATE OF OCCUPANCY/COMPLIANCE

If this is a temporary Certificate of Occupancy or Compliance, the following conditions must be met no later than _____ or will be subject to fine or order to vacate:

☐ CERTIFICATE OF CLEARANCE — LEAD ABATEMENT 5:17

This serves notice that based on written certification, lead abatement was performed as per NJAC 5:17, to the following extent:

[] Total removal of lead-based paint hazards in scope of work

[] Partial or limited time period (____ years); see file

☐ CERTIFICATE OF CONTINUED OCCUPANCY

This serves notice that based on a general inspection of the visible parts of the building there are no imminent hazards and the building is approved for continued occupancy.

☐ CERTIFICATE OF COMPLIANCE

This serves notice that said potentially hazardous equipment has been installed and/or maintained in accordance with the New Jersey Uniform Construction Code and is approved for use until _____.

BREAKING

The Clinton Community Center: A place to come together

Mar 12, 2013

Instructor Miranda Coppola leads Jazzercise participants in a class last month at the Clinton Community Center.

CLINTON - Basketball, Irish dance, senior yoga and more all come together in one place in this town: the Clinton Community Center.

Since 1929, when Clinton acquired the building from the Gebhardt family, the center, located on Halstead Street next to the North County Branch Library, has played host to myriad local organizations, teams and activities for residents of all ages.

"It's just a great place for kids to go, to be available to them," said Board of Recreation Secretary and Community Center Scheduler Nancy Smith. She added of the center's programs, "We try to hit all ages."

Ellen Lubrano, who runs Jazzercise classes at the center, said, "It gives a focal point for everyone who's new... You find out so much about what's going on. It's the heart of the community."

Inside the building is a small gymnasium, used for everything from Martial Arts classes to an annual holistic fair. Upstairs are several classrooms, and outside a tennis and basketball court and a baseball diamond for warm-weather recreation.

"In my opinion, it gives kids something to do," said Mary Kay Love, who helps run the Clinton Jazzercise classes, of the center. "It keeps kids off the streets. This may be Clinton, New Jersey, but there are problems everywhere."

On a Wednesday morning last month, the center's gymnasium filled with upbeat pop music and spandex-clad women, ready to workout as part of a Jazzercise class. It's activities like these, whether Jazzercise, the annual town picnic or even Election Day voting, that "keep this place going," said Lubrano.

To find out more about the community center and the activities offered there, call Town Hall at (908) 735-8616.

Upgrades planned for community center, ball field

CLINTON - The town is planning further improvements to the historic Clinton Community Center building this year, and hopes to start sprucing up the adjoining Gebhardt Field.

Located off Halstead Street, the Community Center is usually bustling with activity, whether its community and teen events, exercise classes, concerts, games involving the Clinton Basketball League, or voting on Election Day.

TOP STORY

Clinton residents still push for playground community build

By JANE PRIMERANO Contributing Writer
Oct 2, 2022

1 of 3

Clinton Mayor Janice Kovach honored Clinton Community Youth Athletics (CCYA) Director Bill Colantano with a plaque recognizing his years of coaching. Photo by Jane Primerano

CLINTON – The Town Council invited experts on inclusive playgrounds to its Wednesday, Sept 28, meeting to explain what the town is getting into with its new million-dollar playground proposal.

The Playground Committee now has a seventh member, Nicole Ayers, and had scheduled a meeting for Thursday, Sept. 29.

Parents have persuaded the council to replace a 30-year-old playground in the town park on Halstead Street near the Community Center with an inclusive playground.

An inclusive playground is a universally designed, sensory-rich environment that enables children to develop physically, socially and emotionally. It's an engaging place that provides the just-right level of challenge for all children to succeed and a place that goes beyond minimum accessibility to create play experiences for all.

and interests. At an inclusive playground, children and adults of all abilities can interact with each other and do what everyone wants to do – play, according to Jake's Place.

Representatives from the Jake's Place Inclusive Playgrounds and The Matheny School in Peapack Gladstone spoke to the meeting via Zoom.

Councilwoman Megan Johnson explained that Matheny School is a residential school and hospital for people with disabilities.

Donna Kelly, the director of occupational therapy at Matheny, explained "you have to think of everyone when you think of inclusion." She said even older people, such as those with Alzheimer's, enjoy such playgrounds.

Kelly suggested they have an occupational therapist on their team to help the committee understand people with physical and cognitive disabilities and people on the autism spectrum.

Also on the Zoom call was Arthur Aston, executive director of Jake's Place, He told council they need to understand the difference between Americans with Disabilities Act (ADA) compliant and inclusive. The ADA only requires people have access to the facility, not necessarily that it meets the needs of everyone.

Jim and Lynn Cummings said they founded Jake's Place All-Inclusive Playgrounds in Cherry Hill and Delran because of their grandson's disability. Lynn Cummings said playgrounds provide fun, learning, socialization and community for children with and without disabilities.

Jim Cummings explained the inclusivity is not just for the children but also for the caregivers who bring them to the playground. He said all Army installations have inclusive playgrounds to accommodate service personnel or veterans with disabilities who bring children to the playgrounds.

He encouraged Clinton to do a community build. He said that provides more buy-in from the community. His wife explained the manufacturer provides support, "when we built the playground, it was very organized; the manufacturer sent in staff and trainers."

Lynn Cummings said the playground cost \$700,000. It took four years to raise the money and three days to put it together, and that the best builders were teen volunteers used to building with Legos.

Mayor Janice Kovach said Clinton would like to have the very best of everything but also has to be able to raise the money to pay for the best.

Councilman Nick Bruno noted it has been difficult to get people to join committees in the town, or even to put together an event for the veterans, so he is skeptical about getting a large number of people for a build, a comment that was echoed by resident Laura Burr, who ran the recent town picnic.

Public Comment

Resident Nancy Grainy, who lives directly opposite the park said she enjoys watching the children play. She reminded the council that the smallest children love to have a sandbox. She also said she often sees cars parked in the no parking zone on the playground side of the street.

Resident Ken Fisher advocated for a community build, noting there is much less of a wait for grant money with that option. He also said he believes lots of people will help.

Mayor Kovach said the town is very familiar with the grant process.

Resident Liz Hedden noted there is a new playground at the town school which is open to non-students after 3 p.m. each day. She advocated for advertising the reasons to visit Clinton if out-of-towners visit the new playground. Hedden said the school playground cost \$1 million.

Burr, who is a resident and member of the playground booster club said she is a physical education teacher. She said it is of benefit to all children to play together on a playground because there is less awkwardness in a common space. She also said many non-disabled kids have problems that nobody sees.

Playground committee member Molly Plevin said the boosters already have some money put away for the playground build, but did not give an amount.

Kovach said the quote the town received from one vendor was \$898,000, but she wants to start with a clean slate. Town Administrator Richard Phelan said the town reached out to 17 state contractors and 14 responded, although not all of those were amenable to a community build.

Other Business

The council awarded a contract for garbage pickup to Republic Services of New Jersey, Flemington, for \$877,139. Of that, \$473,678 is for solid waste and \$403,461 is for recycling.

Kovach explained the solid waste budget is being removed from the municipal budget. Residents will be billed quarterly just as they are for water and sewer. She said the town had to remove solid waste from the municipal budget to keep the tax rate under the state mandated cap. She said no other hauler bid on the contract.

Council also approved hiring Matthew Hoser for one of the Department of Public Works (DPW) vacancies at a rate of \$19.84 an hour. There are still two vacancies on the DPW.

At the start of the meeting, the council honored Clinton Community Youth Athletics (CCYA) Director Bill Colantano with a plaque recognizing his years of coaching and other services to the youth of the town.

The next Town of Clinton Council meeting will be held at 7:30 p.m. on Wednesday, Oct. 12, at the municipal building at 43 Leigh St. and via Zoom teleconference.

HUNTERDON COUNTY DEMOCRAT

Gebhardt & Kiefer, P.C. celebrates 130 years

Published: Apr. 10, 2014, 8:42 p.m.

Carol Dvor, Safe Harbor site director (2nd from left), receives a donation of 130 toys & games from Gebhardt & Kiefer family law attorneys William Rudnik (left), Diana Fredericks (2nd from right), and William Goodwin (right).

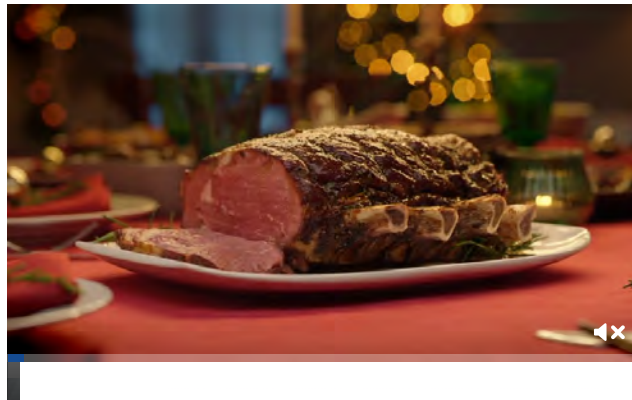

Gebhardt & Kiefer, P.C., one of Hunterdon County's oldest and largest law firms, is celebrating its 130th anniversary in 2014.

The firm will commemorate the occasion, while also honoring the County's 300th anniversary, with a "130/300" charitable donation program. The firm will donate 130 items to each of various charities over a span of 300 days.

"Our firm has been part of Hunterdon County since our founding in 1884," says senior partner Richard Cushing. "We want to give back to a community that has enabled us to sustain and grow our business for 130 years."

Advertisement

The firm's first act of charity is a donation of 130 toys and games to Safe Harbor Child Access Center in Flemington. Gebhardt & Kiefer family law attorneys William Goodwin, William Rudnik, and Diana Fredericks Gebhardt & Kiefer 130th Anniversary recently presented the items, along with a storage chest, to Safe Harbor site director Carol Dvoor.

According to Fredericks, "Carol told us that the children were in need of activities, games and toys to use during their visitation time with family members at Safe Harbor. Gebhardt & Kiefer is thrilled to be able to assist Safe Harbor in meeting this need."

The family visitations are part of Safe Harbor's mission to provide services to separating, divorcing, and divorced families to assure that children have continuing contact with both parents and other family members. The center allows for parenting time/visitation in potentially high-risk situations, and allows for reintroduction of a parent or other family member. Safe Harbor aims to provide these services in a safe, courteous and child-friendly environment.

Other charitable donations by Gebhardt & Kiefer will be announced in the coming months. The firm also sponsored the band and the cocktail hour at the County's Tricentennial Gala, which was held at the Grand Colonial on March 29.

Gebhardt & Kiefer was founded in 1884 by William C. Gebhardt, an acclaimed attorney who also served as a three-term State Senator and was appointed clerk of the Supreme Court by Governor Woodrow Wilson.

Among his many contributions to the community, Senator Gebhardt endowed Gebhardt Field, a baseball venue in Clinton that still bears his family name. His children, Phillip, Reading and Elinor, all became lawyers who joined the firm. Elinor was one of the first female lawyers in N.J. Phillip was president of the State Bar Association and a local judge.

Advertisement

Reading helped to found the Hunterdon County YMCA and served as chairman of its Administration Committee.

The Gebhardts were joined in their practice by Bud Kiefer, a prominent estate and trust attorney.

In its history spanning three different centuries, Gebhardt & Kiefer has had its offices at four different locations in Hunterdon County. It is thought that William Gebhardt's original office was in the upstairs of the small frame building that still exists at the southwest corner of Leigh and Main Streets in Clinton.

He later moved to the upstairs of the building, which is on the northwest corner of Leigh and Main Streets (then known as the Clinton National Bank). In 1954, the firm moved to 19-21 Main Street in Clinton. In 1988, the firm relocated to its present facility at 1318 Route 31 in Clinton Township.

Today, Gebhardt & Kiefer comprises 19 attorneys and has a strong reputation in personal injury, trial work, matrimonial, employment law, real estate law and land use, business law, estate planning, and municipal law.

Carol Dvoor, Safe Harbor site director (2nd from left), receives a donation of 130 toys & games from Gebhardt & Kiefer family law attorneys William Rudnik (left), Diana Fredericks (2nd from right), and William Goodwin (right).

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL..... National Priority List
Proposed NPL..... Proposed National Priority List Sites
NPL LIENS..... Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL..... National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY..... Federal Facility Site Information listing
SEMS..... Superfund Enterprise Management System

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE..... Superfund Enterprise Management System Archive

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS..... Corrective Action Report

Lists of Federal RCRA TSD facilities

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

Lists of Federal RCRA generators

RCRA-LQG..... RCRA - Large Quantity Generators
RCRA-SQG..... RCRA - Small Quantity Generators
RCRA-VSQG..... RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

Federal institutional controls / engineering controls registries

LUCIS..... Land Use Control Information System

EXECUTIVE SUMMARY

US ENG CONTROLS..... Engineering Controls Sites List
US INST CONTROLS..... Institutional Controls Sites List

Federal ERNS list

ERNS..... Emergency Response Notification System

Lists of state- and tribal hazardous waste facilities

HIST HWS..... Known Contaminated Sites Listing

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF..... Solid Waste Facility Directory

Lists of state and tribal leaking storage tanks

INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land

Lists of state and tribal registered storage tanks

FEMA UST..... Underground Storage Tank Listing
UST..... Underground Storage Tank Data
MAJOR FACILITIES..... List of Major Facilities
INDIAN UST..... Underground Storage Tanks on Indian Land

State and tribal institutional control / engineering control registries

ENG CONTROLS..... Declaration Environmental Restriction/Deed Notice Sites

Lists of state and tribal voluntary cleanup sites

INDIAN VCP..... Voluntary Cleanup Priority Listing
NJ PF..... Publicly Funded Cleanups Site Status Report

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS..... A Listing of Brownfields Sites

Local Lists of Landfill / Solid Waste Disposal Sites

HIST LF..... Solid Waste Facility Directory
SWRCY..... Approved Class B Recycling Facilities
INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands
ODI..... Open Dump Inventory
DEBRIS REGION 9..... Torres Martinez Reservation Illegal Dump Site Locations
IHS OPEN DUMPS..... Open Dumps on Indian Land

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL..... Delisted National Clandestine Laboratory Register
US CDL..... National Clandestine Laboratory Register

EXECUTIVE SUMMARY

Local Land Records

LIENS..... Environmental LIENS
 LIENS 2..... CERCLA Lien Information

Records of Emergency Release Reports

HMIRS..... Hazardous Materials Information Reporting System
 SPILLS..... Spills
 NJ Release..... Hazardous Material Incident Database
 SPILLS 90..... SPILLS 90 data from FirstSearch
 SPILLS 80..... SPILLS 80 data from FirstSearch

Other Ascertainable Records

FUDS..... Formerly Used Defense Sites
 DOD..... Department of Defense Sites
 SCR DRYCLEANERS..... State Coalition for Remediation of Drycleaners Listing
 US FIN ASSUR..... Financial Assurance Information
 EPA WATCH LIST..... EPA WATCH LIST
 2020 COR ACTION..... 2020 Corrective Action Program List
 TSCA..... Toxic Substances Control Act
 TRIS..... Toxic Chemical Release Inventory System
 SSTs..... Section 7 Tracking Systems
 ROD..... Records Of Decision
 RMP..... Risk Management Plans
 RAATS..... RCRA Administrative Action Tracking System
 PRP..... Potentially Responsible Parties
 PADS..... PCB Activity Database System
 ICIS..... Integrated Compliance Information System
 FTTS..... FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
 MLTS..... Material Licensing Tracking System
 COAL ASH DOE..... Steam-Electric Plant Operation Data
 COAL ASH EPA..... Coal Combustion Residues Surface Impoundments List
 PCB TRANSFORMER..... PCB Transformer Registration Database
 RADINFO..... Radiation Information Database
 HIST FTTS..... FIFRA/TSCA Tracking System Administrative Case Listing
 DOT OPS..... Incident and Accident Data
 CONSENT..... Superfund (CERCLA) Consent Decrees
 INDIAN RESERV..... Indian Reservations
 FUSRAP..... Formerly Utilized Sites Remedial Action Program
 UMTRA..... Uranium Mill Tailings Sites
 LEAD SMELTERS..... Lead Smelter Sites
 US AIRS..... Aerometric Information Retrieval System Facility Subsystem
 US MINES..... Mines Master Index File
 ABANDONED MINES..... Abandoned Mines
 MINES MRDS..... Mineral Resources Data System
 UXO..... Unexploded Ordnance Sites
 DOCKET HWC..... Hazardous Waste Compliance Docket Listing
 ECHO..... Enforcement & Compliance History Information
 FUELS PROGRAM..... EPA Fuels Program Registered Listing
 PFAS NPL..... Superfund Sites with PFAS Detections Information
 PFAS FEDERAL SITES..... Federal Sites PFAS Information

EXECUTIVE SUMMARY

PFAS TSCA.....	PFAS Manufacture and Imports Information
PFAS TRIS.....	List of PFAS Added to the TRI
PFAS RCRA MANIFEST.....	PFAS Transfers Identified In the RCRA Database Listing
PFAS ATSDR.....	PFAS Contamination Site Location Listing
PFAS WQP.....	Ambient Environmental Sampling for PFAS
PFAS NPDES.....	Clean Water Act Discharge Monitoring Information
PFAS ECHO.....	Facilities in Industries that May Be Handling PFAS Listing
PFAS ECHO FIRE TRAINING.....	Facilities in Industries that May Be Handling PFAS Listing
PFAS PART 139 AIRPORT.....	All Certified Part 139 Airports PFAS Information Listing
AQUEOUS FOAM NRC.....	Aqueous Foam Related Incidents Listing
BIOSOLIDS.....	ICIS-NPDES Biosolids Facility Data
PFAS.....	PFAS Contamination Site Location
CHROME.....	Chromate Chemical Production Waste Sites
COAL ASH.....	Coal Ash Listing
DRYCLEANERS.....	Drycleaner List
Financial Assurance.....	Financial Assurance Information Listing
GW CONTAM AREAS.....	Groundwater Contamination Areas

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Lists of state- and tribal hazardous waste facilities

SHWS: Known contaminated sites in New Jersey except those associated with Bureau of Underground Storage Sites (BUST)

A review of the SHWS list, as provided by EDR, and dated 08/07/2023 has revealed that there are 85 SHWS sites within approximately 1 mile of the target property.

HWS RE-EVAL: The locations were removed from the Known Contaminated Sites list for a variety of reasons. Some of the sites were taken off the list because they were inactive, some were not assigned a case worker and some were no longer contaminated. Inspectors from the DEP are now undertaking a full re-evaluation of each of the locations statewide. That includes visual and environmental tests to see whether contamination still exists.

A review of the HWS RE-EVAL list, as provided by EDR, and dated 09/20/2007 has revealed that there is 1 HWS RE-EVAL site within approximately 1 mile of the target property.

State and tribal institutional control / engineering control registries

INST CONTROL: Sites where engineering and/or institutional controls remain in place as part of a remedial action to address soil and/or groundwater contamination. These restrictions ensure protection of human health and the environment as long as they are maintained.

A review of the INST CONTROL list, as provided by EDR, and dated 08/21/2023 has revealed that there is 1 INST CONTROL site within approximately 0.5 miles of the target property.

Lists of state and tribal brownfield sites

BROWNFIELDS: Brownfields are identified as former or current commercial or industrial use sites that are presently vacant or underutilized, on which there is suspected to have been a discharge of a contamination to the soil or groundwater at concentrations greater than applicable cleanup criteria.

A review of the BROWNFIELDS list, as provided by EDR, and dated 07/16/2023 has revealed that there are 4 BROWNFIELDS sites within approximately 0.5 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

NJEMS: NJEMS Sites are points representing sites regulated by NJDEP under one or more regulatory permitting or enforcement programs, or sites that are otherwise of some interest to a NJDEP program. Program interests included in NJEMS are: Air, Communications Center, Discharge Prevention, Exams and Licensing, Fish Game and Wildlife, Green Acres, Hazardous Waste, Lab Certification, Land Use, Landscape Irrigation, Parks and Forestry, Pesticides, Pinelands, Planning, Radiation, Right-to-Know, Site Remediation, Soil Conservation, Solid Waste, TCPA, Water Quality, Water Supply, and Watershed Management.

A review of the NJEMS list, as provided by EDR, and dated 08/13/2023 has revealed that there is 1

EXECUTIVE SUMMARY

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/04/2023 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
CLINTON FORD CHRYSLER EPA ID:: NJD094351939	RT 31	N 1/8 - 1/4 (0.218 mi.)	6	16

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 11/03/2023 has revealed that there is 1 FINDS site within approximately 0.001 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
HUNTERDON CNTY NORTH Registry ID:: 110060305673	65 HALSTEAD ST	0 - 1/8 (0.000 mi.)	A1	8

AIRS: An emission inventory is an estimate of air pollutant emissions in a given area. Emission inventories are fundamental building blocks used to develop air quality control strategies on a local, regional and national level. Emission inventories are also used to estimate the progress of an air quality program.

A review of the AIRS list, as provided by EDR, and dated 07/20/2023 has revealed that there is 1 AIRS site within approximately 0.001 miles of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

SHWS: Known Contaminated Sites in New Jersey

The Known Contaminated Sites in New Jersey includes sites under the purview of the Site Remediation Program which have contamination present at levels greater than the applicable cleanup criteria for soil and/or groundwater standards. The sites appearing in Known Contaminated Sites in New Jersey are classified as either active, where the site is assigned to a specific remedial program area, or pending, where the site is awaiting assignment to a specific remedial program area. Sites where no further action (NFA) designation has been given are not included in this report unless there are other areas of identified contamination which have not been remediated. This report includes sites being remediated under all of the various regulatory programs administered by the Site Remediation Program such as: Federal Superfund Program, Federal Resource Conservation and Recovery Act (RCRA), New Jersey's Industrial Site Recovery Act (ISRA), New Jersey's Underground Storage of Hazardous Substances Act, New Jersey's Spill Compensation and Control Act, New Jersey's Solid Waste Management Act, New Jersey's Water Pollution Control Act.

HWS RE-EVAL: Site Re-Evaluation Report

The locations were removed from the Known Contaminated Sites list for a variety of reasons. Some of the sites were taken off the list because they were inactive, some were not assigned a case worker and some were no longer contaminated. Inspectors from the DEP are now undertaking a full re-evaluation of each of the locations statewide. That includes visual and environmental tests to see whether contamination still exists.

Date of Government Version: 09/20/2007

HIST HWS: Known Contaminated Sites Listing

The Known Contaminated Sites in New Jersey report is a municipal listing of sites where contamination of soil and/or ground water is confirmed at levels greater than the applicable cleanup criteria or standards. Remedial activities are underway or required at the sites with an on-site source(s) of contamination and at locations where the source(s) of contamination is unknown. Sites with completed remedial work that require engineering and/or institutional controls have reporting measures in place to ensure the effectiveness of past actions, and some include maintenance and/or monitoring

Number of Days to Update: 80	Next Scheduled EDR Contact: 01/29/2024
	Data Release Frequency: Annually

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS TSCA: PFAS Manufacture and Imports Information

EPA issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. EPA publishes non-confidential business information (non-CBI) and includes descriptive information about each site, corporate parent, production volume, other manufacturing information, and processing and use information.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

GW CONTAM AREAS: Groundwater Contamination Areas

This data identifies those sites where groundwater contamination has been identified and, where appropriate, the NJDEP has established a Classification Exception Area (CEA). CEAs are institutional controls in geographically defined areas within which the New Jersey Ground Water Quality Standards (NJGWQS) for specific contaminants have been exceeded. When a CEA is designated for an area, the constituent standards and designated aquifer uses are suspended for the term of the CEA. This data layer contains information about areas in the state which are specified as the Currently Known Extent (CKE) of ground water pollution. CKE areas are geographically defined areas within which the local ground water resources are known to be compromised because the water quality exceeds drinking water and ground water quality standards for specific contaminants.

ISRA: ISRA Database

The ISRA process begins with determining if the Act applies to your type of business and transaction. The provisions of ISRA only apply to industrial establishments. What is an industrial establishment? The term "industrial establishment" refers to the type of business operations and transactions that would subject a facility to review under ISRA.

An industrial establishment must meet each of the following three criteria: The place of business or real property at which such business is conducted, having a North American Industry Classification System (NAICS) code listed in N.J.A.C. 7:26 B - Appendix C subject to the specified exceptions and limitations. The place of business must have been engaged in operations on or after December 31, 1983; and The place of business must involve the generation, manufacture, refining, transportation, treatment, storage, handling, or disposal of hazardous substances or hazardous wastes.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

GEOCHECK[®] - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

CLINTON COMMUNITY CENTER
63 HALSTEAD STREET
CLINTON, NJ 08809

TARGET PROPERTY COORDINATES

Latitude (North):	40.642335 - 40° 38' 32.41"
Longitude (West):	74.912566 - 74° 54' 45.24"
Universal Transverse Mercator:	Zone 18
UTM X (Meters):	507393.1
UTM Y (Meters):	4498846.5
State Plane X (Feet):	377640.9
State Plane Y (Feet):	659167.0
Elevation:	222 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	14327246 HIGH BRIDGE, NJ
Version Date:	2019

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

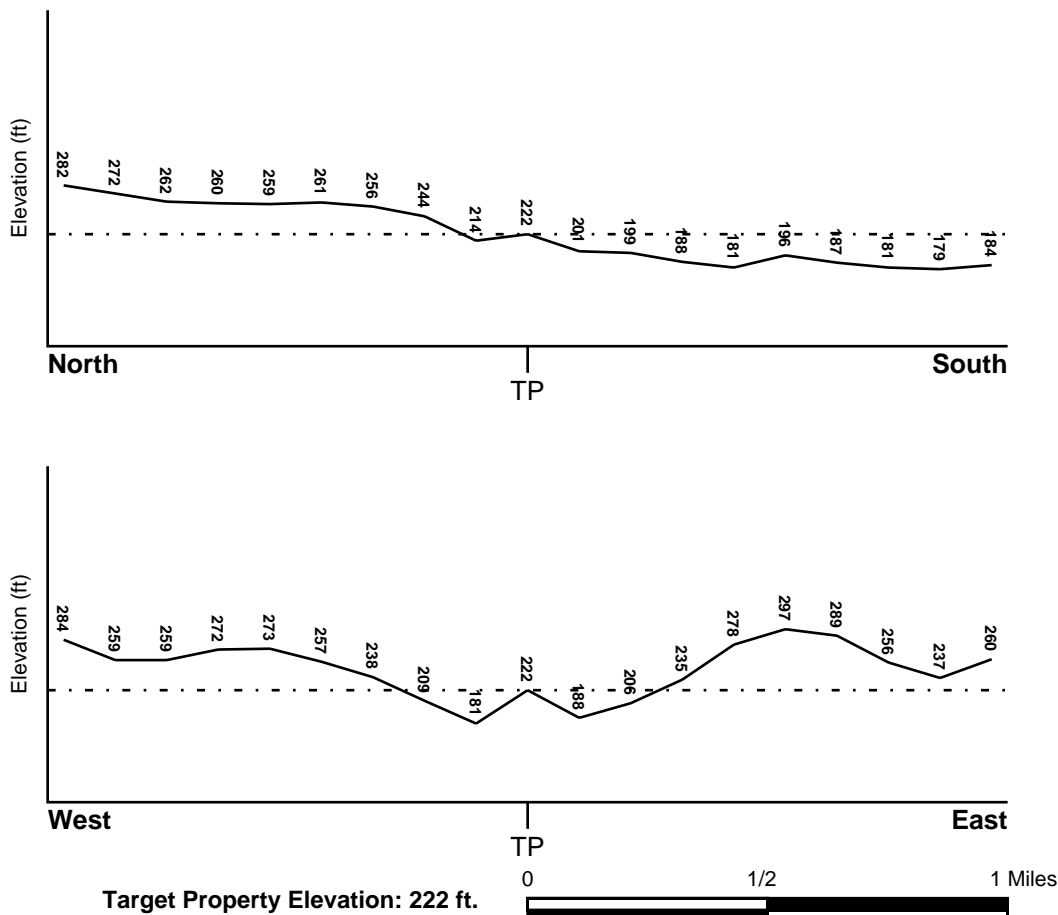

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

34019C0119F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
HIGH BRIDGE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

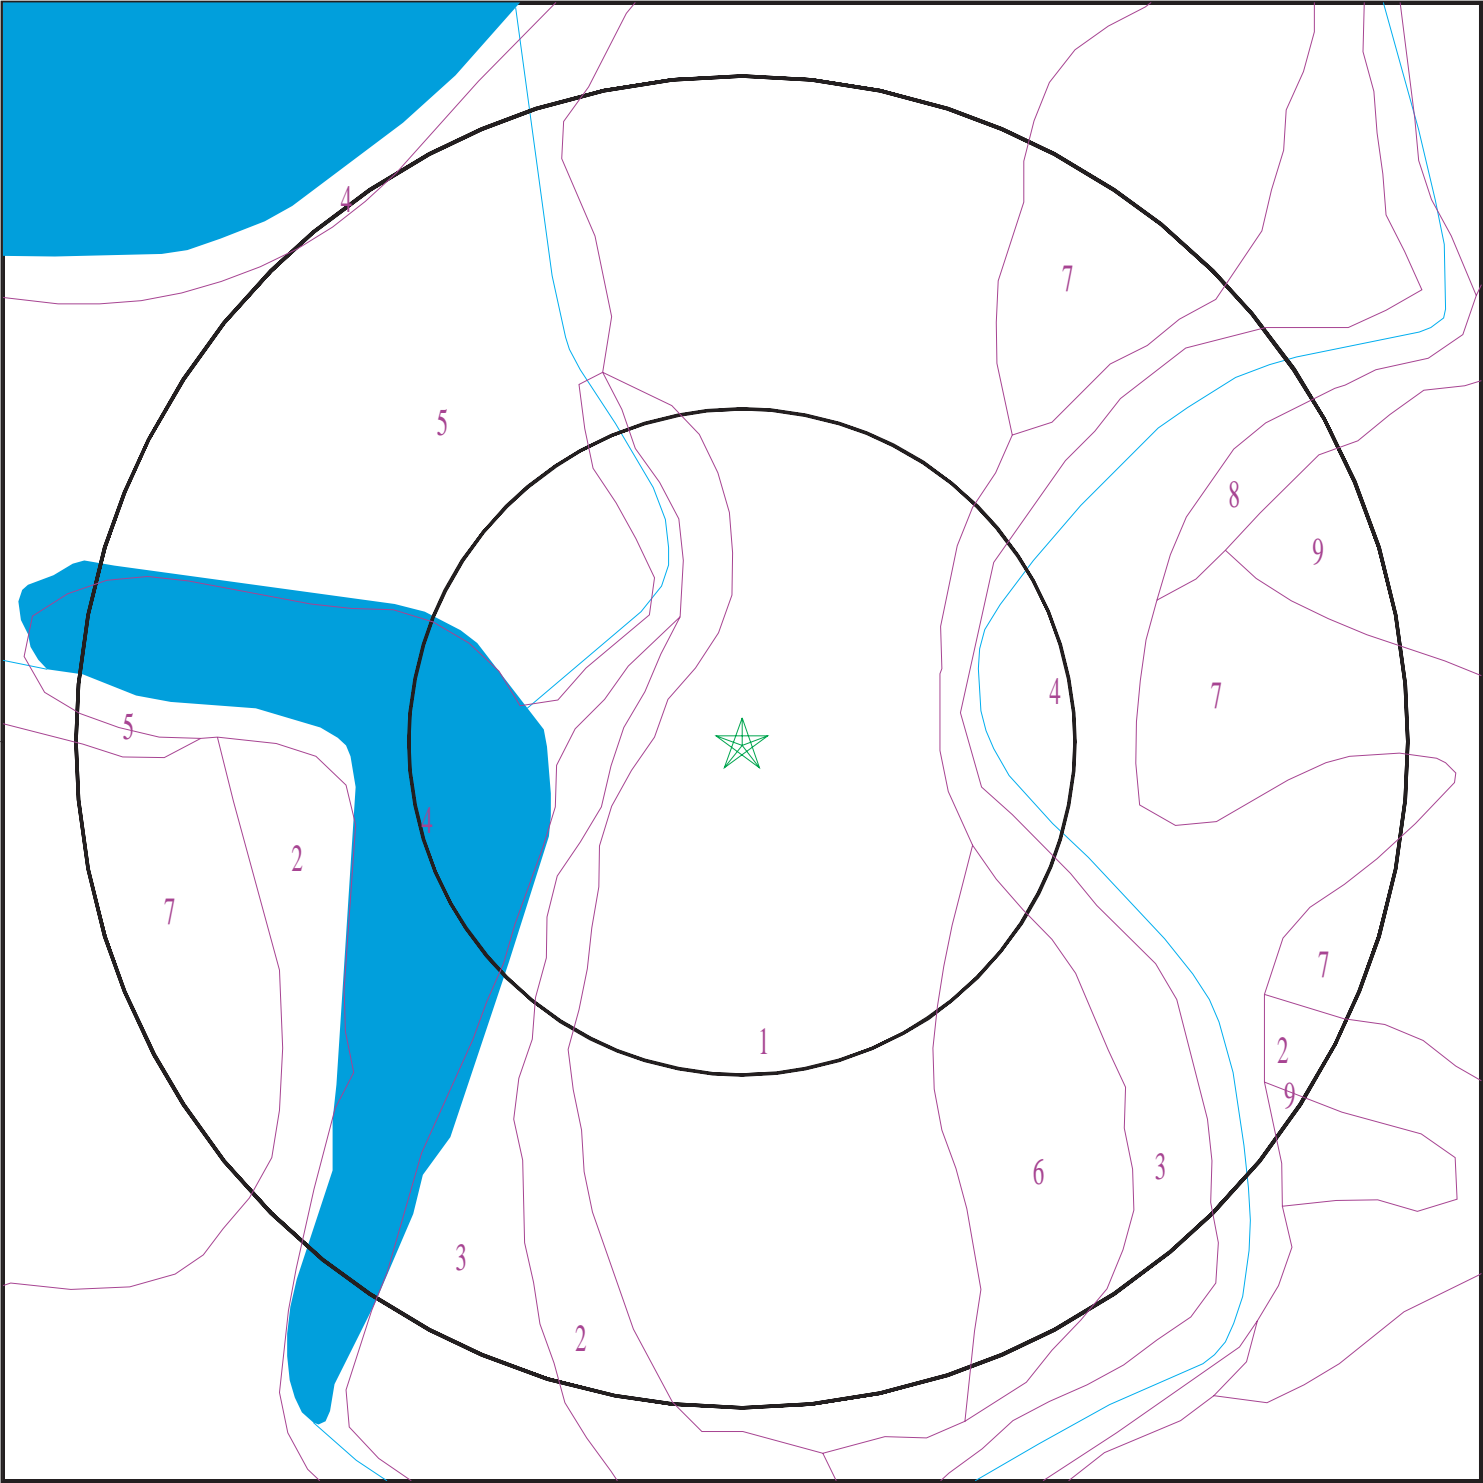

Era:	Paleozoic

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Washington

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	7 inches	16 inches	loam	Not reported	Not reported	Max: 42.34 Min: 4.23	Max: 7.3 Min: 5.6
2	0 inches	7 inches	loam	Not reported	Not reported	Max: 42.34 Min: 4.23	Max: 7.3 Min: 5.6
3	16 inches	50 inches	loam	Not reported	Not reported	Max: 42.34 Min: 4.23	Max: 7.3 Min: 5.6
4	50 inches	59 inches	loam	Not reported	Not reported	Max: 42.34 Min: 4.23	Max: 7.3 Min: 5.6

Soil Map ID: 2

Soil Component Name: Duffield

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 142 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	silt loam	Not reported	Not reported	Max: 141.14 Min: 0.42	Max: Min:
2	9 inches	14 inches	silt loam	Not reported	Not reported	Max: 141.14 Min: 0.42	Max: Min:
3	14 inches	27 inches	silt loam	Not reported	Not reported	Max: 141.14 Min: 0.42	Max: Min:
4	27 inches	42 inches	silt loam	Not reported	Not reported	Max: 141.14 Min: 0.42	Max: Min:
5	42 inches	55 inches	loam	Not reported	Not reported	Max: 141.14 Min: 0.42	Max: Min:
6	55 inches	157 inches	unweathered bedrock	Not reported	Not reported	Max: 141.14 Min: 0.42	Max: Min:

Soil Map ID: 3

Soil Component Name: Fluvaquents

Soil Surface Texture: loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Poorly drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 15 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	loam	Not reported	Not reported	Max: 14.11 Min: 4.23	Max: 6.5 Min: 3.6
2	9 inches	59 inches	fine sand	Not reported	Not reported	Max: 14.11 Min: 4.23	Max: 6.5 Min: 3.6

Soil Map ID: 4

Soil Component Name: Water

Soil Surface Texture: loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class:
Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

Soil Map ID: 5

Soil Component Name: Udorthents

Soil Surface Texture: silt loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Moderately well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	59 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	Not reported	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.6

Soil Map ID: 6

Soil Component Name: Fluvaquents

Soil Surface Texture: loam

Hydrologic Group: Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 15 inches

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

Source: Department of Environmental Protection

Telephone: 609-984-2243

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

New Jersey Public-Community Water-Supply Wells

Source: Department of Environmental Protection, Geological Survey

Telephone: 609-984-6587

New Jersey Ambient Ground Water Quality Network Data

Source: Department of Environmental Quality

Telephone: 609-984-6587

Ambient Groundwater Quality of the New Jersey Part of the Newark Basin. Natural groundwater quality in the Newark Basin summarize natural groundwater quality in sedimentary bedrock formations of the Newark basin part of the Piedmont physiographic province of New Jersey.

STORET Water Quality Monitoring Stations

Source: Department of Environmental Protection

Telephone: 609-984-6831

STORET maintains the locations of water quality monitoring stations from NJDEP's NJ STORET (Modernized) database.

A station is a location at which a data collection event takes place, such a collection of a field sample, measurement of field parameters or evaluation of environmental habitats.

Water Well Permit Information

Source: Department of Environmental Protection

Telephone: 609-984-6831

Permits to drill wells. Once constructed, the driller must submit a well record document with the as-built description of the well. Drillers also submit a well abandonment report whenever a well has been decommissioned.

OTHER STATE DATABASE INFORMATION

RADON

State Database: NJ Radon

Source: Department of Environmental Protection

Telephone: 609-984-5425

Radon Test Results

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Environmental Alliance, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 93A4-4E3B-8738

PO # 5845_12202023

Project 5845.11

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 93A4-4E3B-8738

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☒ Library of Congress

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

DEPOSITS

The custodian may require a deposit against costs for reproducing documents sought through an anonymous request whenever the custodian anticipates that the documents requested will cost in excess of \$5 to reproduce.

Where a special service charge is warranted under OPRA, that amount will be communicated to you as required under the statute. You have the opportunity to review and object to the charge prior to it being incurred. If, however, you approve of the fact and amount of the special service charge, you may be required to pay a deposit or pay in full prior to reproduction of the documents.

YOUR REQUEST FOR RECORDS IS DENIED FOR THE FOLLOWING REASON(S):

(To be completed by the Custodian of Records – check the box of the numbered exemption(s) as they apply to the records requested. If multiple records are requested, be specific as to which exemption(s) apply to each record. **Response is due to requestor as soon as possible, but no later than seven business days.**)

N.J.S.A. 47:1A-1.1

- ☐ Inter-agency or intra-agency advisory, consultative or deliberative material
- ☐ Legislative records
- ☐ Law enforcement records:
 - ☐ Medical examiner photos
 - ☐ Criminal investigatory records (however, N.J.S.A. 47:1A-3.b. lists specific criminal investigatory information which must be disclosed)
 - ☐ Victims' records
- ☐ Trade secrets and proprietary commercial or financial information
- ☐ Any record within the attorney-client privilege
- ☐ Administrative or technical information regarding computer hardware, software and networks which, if disclosed would jeopardize computer security
- ☐ Emergency or security information or procedures for any buildings or facility which, if disclosed, would jeopardize security of the building or facility or persons therein
- ☐ Security measures and surveillance techniques which, if disclosed, would create a risk to the safety or persons, property, electronic data or software
- ☐ Information which, if disclosed, would give an advantage to competitors or bidders
- ☐ Information generated by or on behalf of public employers or public employees in connection with:
 - ☐ Any sexual harassment complaint filed with a public employer
 - ☐ Any grievance filed by or against an employee
 - ☐ Collective negotiations documents and statements of strategy or negotiating
- ☐ Information that is a communication between a public agency and its insurance carrier, administrative service organization or risk management office
- ☐ Information that is to be kept confidential pursuant to court order
- ☐ Certificate of honorable discharge issued by the United States government (Form DD-214) filed with a public agency
- ☐ Social security numbers
- ☐ Credit card numbers
- ☐ Unlisted telephone numbers
- ☐ Drivers' license numbers
- ☐ Certain records of higher education institutions:
 - ☐ Research records
 - ☐ Questions or scores for exam for employment or academics
 - ☐ Charitable contribution information
 - ☐ Rare book collections gifted for limited access
 - ☐ Admission applications
 - ☐ Student records, grievances or disciplinary proceedings revealing a students' identification
- ☐ Biotechnology trade secrets N.J.S.A. 47:1A-1.2
- ☐ Convicts requesting their victims' records N.J.S.A. 47:1A-2.2
- ☐ Ongoing investigations of non-law enforcement agencies (must prove disclosure is inimical to the public interest) N.J.S.A. 47:1A-3.a.
- ☐ Public defender records N.J.S.A. 47:1A-5.k.
- ☐ Upholds exemptions contained in other State or federal statutes and regulations, Executive Orders, Rules of Court, and privileges created by State Constitution, statute, court rule or judicial case law N.J.S.A. 47:1A-9
- ☐ Personnel and pension records (however, the following information must be disclosed:
 - ☐ An individual's name, title, position, salary, payroll record, length of service, date of separation and the reason for such separation, and the amount and type of any pension received
 - ☐ When required to be disclosed by another law, when disclosure is essential to the performance of official duties of a person duly authorized by this State or the US, or when authorized by an individual in interest
 - ☐ Data contained in information which disclose conformity with specific experiential, educational or medical qualifications required for government employment or for receipt of a public pension, but not including any detailed medical or psychological information N.J.S.A. 47:1A-10

N.J.S.A. 47:1A-1

"a public agency has a responsibility and an obligation to safeguard from public access a citizen's personal information with which it has been entrusted when disclosure thereof would violate the citizen's reasonable expectation of privacy."

Burnett v. County of Bergen, 198 N.J. 408 (2009). Without ambiguity, the court held that the privacy provision "is neither a preface nor a preamble." Rather, "the very language expressed in the privacy clause reveals its substantive nature; it does not offer reasons why OPRA was adopted, as preambles typically do; instead, it focuses on the law's implementation." "Specifically, it imposes an obligation on public agencies to protect against disclosure of personal information which would run contrary to reasonable privacy interests."

Executive Order No. 21 (McGreevey 2002)

- ☐ Records where inspection, examination or copying would substantially interfere with the State's ability to protect and defend the State and its citizens against acts of sabotage or terrorism, or which, if disclosed, would materially increase the risk or consequences of potential acts of sabotage or terrorism.
- ☐ Records exempted from disclosure by State agencies' proposed rules.

Executive Order No. 26 (McGreevey 2002)

- ☐ Certain records maintained by the Office of the Governor
- ☐ Resumes, applications for employment or other information concerning job applicants while a recruitment search is ongoing
- ☐ Records of complaints and investigations undertaken pursuant to the Model Procedures for Internal Complaints Alleging Discrimination, Harassment or Hostile Environments
- ☐ Information relating to medical, psychiatric or psychological history, diagnosis, treatment or evaluation
- ☐ Information in a personal income or other tax return
- ☐ Information describing a natural person's finances, income, assets, liabilities, net worth, bank balances, financial history or activities, or creditworthiness, except as otherwise required by law to be disclosed
- ☐ Test questions, scoring keys and other examination data pertaining to the administration of an examination for public employment or licensing
- ☐ Records in the possession of another department (including NJ Office of Information Technology or State Archives) when those records are made confidential by regulation or EO 9.

Other Exemption(s) contained in a State statute, resolution of either or both House of the Legislature, regulation, Executive Order, Rules of Court, any federal law, federal regulation or federal order pursuant to N.J.S.A. 47:1A-9.a.

(Please provide detailed information regarding the exemption from disclosure for which you are relying to deny access to government records. If multiple records are requested, be specific as to which exemption(s) apply to each record.)

REQUEST FOR RECORDS UNDER THE COMMON LAW

If, in addition to requesting records under OPRA, you are also requesting the government records under the common law, please check the box below.

A public record under the common law is one required by law to be kept, or necessary to be kept in the discharge of a duty imposed by law, or directed by law to serve as a memorial and evidence of something written, said, or done, or a written memorial made by a public officer authorized to perform that function, or a writing filed in a public office. The elements essential to constitute a public record are that it be a written memorial, that it be made by a public officer, and that the officer be authorized by law to make it.

☐ Yes, I am also requesting the documents under common law.

If the information requested is a "public record" under common law and the requestor has a legally recognized interest in the subject matter contained in the material, then the material must be disclosed if the individual's right of access outweighs the State's interest in preventing disclosure.

Please set forth your interest in the subject matter contained in the requested material:

Note that any challenge to a denial of a request for records under the common law cannot be made to the Government Records Council, as the Government Records Council only has jurisdiction to adjudicate challenges to denials of OPRA requests. A challenge to the denial of access under the common law can be made by filing an action in Superior Court.

1. All government records are subject to public access under the Open Public Records Act ("OPRA"), unless specifically exempt.
2. A request for access to a government record under OPRA must be in writing, hand-delivered, mailed, transmitted electronically, or otherwise conveyed to the appropriate custodian. N.J.S.A. 47:1A-5.g. The seven (7) business day response time does not commence until the records custodian receives the request form. If you submit the request form to any other officer or employee of the Town of Clinton, that officer or employee must either forward the request to the appropriate custodian, or direct you to the appropriate custodian. N.J.S.A. 47:1A-5.h.
3. Requestors may submit requests anonymously. If you elect not to provide a name, address, or telephone number, or other means of contact, the custodian is not required to respond until you reappear before the custodian seeking a response to the original request.
4. The fees for duplication of a government record in printed form are listed on the front of this form. We will notify you of any special service charges or other additional charges authorized by State law or regulation before processing your request. Payment shall be made by cash, check or money order payable to the Town of Clinton.
5. ***You may be charged a 50% or other deposit when a request for copies exceeds \$25.*** The Town of Clinton custodian will contact you and advise you of any deposit requirements. You agree to pay the balance due upon delivery of the records. Anonymous requests in excess of \$5.00 require a deposit of 100% of estimated fees.
6. Under OPRA, a custodian must deny access to a person who has been convicted of an indictable offense in New Jersey, any other state, or the United States, **and** who is seeking government records containing personal information pertaining to the person's victim or the victim's family. This includes anonymous requests for said information.
7. By law, the Town of Clinton must notify you that it grants or denies a request for access to government records within seven (7) business days after the agency custodian of records receives the request. If the record requested is not currently available or is in storage, the custodian will advise you within seven (7) business days after receipt of the request when the record can be made available and the estimated cost for reproduction.
8. You may be denied access to a government record if your request would substantially disrupt agency operations and the custodian is unable to reach a reasonable solution with you.
9. If the Town of Clinton is unable to comply with your request for access to a government record, the custodian will indicate the reasons for denial on the request form or other written correspondence and send you a signed and dated copy.
10. Except as otherwise provided by law or by agreement with the requester, if the agency custodian of records fails to respond to you within seven (7) business days of receiving a request, the failure to respond is a deemed denial of your request.
11. If your request for access to a government record has been denied or unfilled within the seven (7) business days required by law, you have a right to challenge the decision by the Town of Clinton to deny access. At your option, you may either institute a proceeding in the Superior Court of New Jersey or file a complaint with the Government Records Council ("GRC") by completing the Denial of Access Complaint Form. You may contact the GRC by toll-free telephone at 866-850-0511, by mail at PO Box 819, Trenton, NJ, 08625, by e-mail at grc@dca.state.nj.us, or at their web site at www.state.nj.us/grc. The Council can also answer other questions about the law. All questions regarding complaints filed in Superior Court should be directed to the Court Clerk in your County.
12. Information provided on this form may be subject to disclosure under the Open Public Records Act.

*For electronic signatures, please type your name under "Signature" above and select the check box below to acknowledge the following:

☐ **CERTIFICATE OF OCCUPANCY**

This serves notice that said building or structure has been constructed in accordance with the New Jersey Uniform Construction Code and is approved for occupancy.

☒ **CERTIFICATE OF APPROVAL**

This serves notice that the work completed has been constructed or installed in accordance with the New Jersey Uniform Construction Code and is approved. If the permit was issued for minor work, this certificate was based upon what was visible at the time of inspection.

☐ **TEMPORARY CERTIFICATE OF OCCUPANCY/COMPLIANCE**

If this is a temporary Certificate of Occupancy or Compliance, the following conditions must be met no later than _____, 19____ or the owner will be subject to fine or order to vacate:

Home Warranty No. _____
Type of Warranty Plan: [] State [] Private
Use Group _____
Maximum Live Load _____
Construction Classification _____
Maximum Occupancy Load _____
Description of Work/Use:

Service Upgrade

☐ **CERTIFICATE OF CLEARANCE — LEAD ABATEMENT 5:17**

This serves notice that based on written certification, lead abatement was performed as per NJAC 5:17, to the following extent:

- [] Total removal of lead-based paint hazards in scope of work
[] Partial or limited time period (_____ years); see file

☐ **CERTIFICATE OF CONTINUED OCCUPANCY**

This serves notice that based on a general inspection of the visible parts of the building there are no imminent hazards and the building is approved for continued occupancy.

☐ **CERTIFICATE OF COMPLIANCE**

This serves notice that said potentially hazardous equipment has been installed and/or maintained in accordance with the New Jersey Uniform Construction Code and is approved for use until _____.

Hunterdon County Public Records messages@nextrequest.com

To: Sharon Maher <smaher@envalliance.com>

Record request #23-3432 has been closed. The closure reason supplied was:

Dear Requester,

Hunterdon County is in receipt of your Open Public Records Act (OPRA) request dated 12/19/2023. As such, the seven (7) business day deadline to respond to your request is 12/29/2023. This response to your request is being provided to you on 12/20/2023.

Your OPRA request sought access to the following: "Looking for Health Department records for 63 Halstead Street (Block 16, Lot 21) in Clinton. Property has parks, playgrounds and the Clinton Community Center. Looking for any records of potable or irrigation well, above-ground or underground storage tanks, septic systems, and inspections."

Please note that your request is not in its entirety a valid OPRA request because it asks questions or seeks information and fails to identify with reasonable clarity all the specific government records sought. A party cannot satisfy this requirement by simply requesting all of an agency's documents. See *Bent v. Stafford Police Department*, 381 N.J. Super. 30, 37 (App. Div. 2005). A custodian is not required to conduct research or create new records in response to an OPRA request.

The County Health Department has responded by providing records which may be responsive to your request. You can access those documents by clicking the "documents" tab in your request.

You may wish to contact the municipality for any records regarding any other records that may be responsive to your request.

Please visit the Hunterdon County website for more information on municipalities and townships at: <http://www.co.hunterdon.nj.us/mun/mayors.htm>.

You should submit an OPRA request with the NJDEP as they will have a complete file on the property you requested including hazardous materials. There may be NJDEP case numbers throughout the documents we have provided. <https://www.nj.gov/dep/opra/opraform.html>

The NJDEP has two websites where you can search well information on. https://www.state.nj.us/dep/watersupply/pw_permit.html and https://www9.state.nj.us/DEP/WaterWatch_public/

Your Open Public Records request has been processed in accordance with N.J.S.A. 47:1A-1, et seq. If your request has been denied in whole or in part, the County of Hunterdon reserves the right to raise any other grounds for denial not raised in this response. The failure of the County of Hunterdon to assert an exception or privilege herein does not act as a waiver of any ground for denial not raised herein.

The County considers your OPRA request closed.

If you have any questions, please do not hesitate to contact my office. If you have questions concerning the attached records, please contact the Health Department at 908.788.1351. Department staff is available to speak with you.

Sincerely,

Hunterdon County Counsel's Office
908-788-1546

[View Request 23-3432](https://hunterdoncountynj.nextrequest.com/requests/23-3432)

<https://hunterdoncountynj.nextrequest.com/requests/23-3432>

The New Jersey Department of Environmental Protection (NJDEP), acknowledges the receipt of your Open Public Records Act (OPRA) record request. The NJDEP will respond to your request within seven (7) business days.

If you have any questions, please contact the Office of Record Access at (609) 341-3121, or e-mail our office at: records.custodian@dep.nj.gov. The assigned OPRA Record Request Tracking #, identified in the Subject Line of this email, will facilitate future communications with our office.

Thank you,

NJDEP - Office of Record Access

Access Method	Send Electronic copies
All matters relating to the response and access of any records identified for this request should be directed to: NJDEP – Office of Record Access 401 East State Street PO Box 420 Mail Code 401-06Q Trenton, New Jersey 08625-0420 Tele #: (609) 341-3121 Fax #: (609) 292-1177	

Record Request Details:

I am conducting an environmental due diligence on the above referenced property and seek all identifiable remedial, permitting, compliance, and enforcement records.

Disposition Notes	Record Request Response
Based on the record request, no responsive records have been identified. Requester should contact the Office of Record Access at 609-341-3121 with any questions.	In Progress - Open
	Filled - Closed X
	Denied - Closed
	Partial - Closed
Addendum Disposition Notes: Based on this request, no responsive records have been located. Please note that the request is very broad and does not define specific records and for that reason; the NJDEP searched for any remedial, permitting and enforcement records from the various NJDEP Programs that have historically provided records in response to Environmental Phase I or Due Diligence (e.g. performing a Preliminary Assessment) requests.	 12/27/2023
	Custodian Signature Date

Access to Government Records Under the New Jersey Open Public Records Act (N.J.S.A. 47:1A-1 et seq.)

The New Jersey Department of Environmental Protection has responded to your submitted Open Public Records Act (OPRA) record request. The following information will help you understand the response and your next available actions.

Tracking #: This is the Department's assigned Tracking # to your OPRA record request, which should be used in all corresponding matters.

Record Request Response:

- **In Progress** – Based on the nature of the request, the records sought, and/or the manner to which the records may exists, the Department requires additional time to investigate and respond to the request.
- **Filled** – Based on the information provided in your request, the Department was able to investigate and respond to your record request.
- **Denied** – Based on the nature of the request and/or the records sought, the Department has denied your request pursuant to a specific exemption(s) cited in N.J.S.A. 47:1A-1 seq.
- **Partial** – The Department has identified both responsive government records and records being denied based on the nature of the request and/or the records sought, that do not meet the definition of a government record pursuant to a specific exemption(s) cited in N.J.S.A. 47:1A-1 seq.

Disposition Notes: Provides detailed information concerning the Department's response to your request.

Accessing Records: Dependent on the volume of records and your interest, there are five (5) methods available to access the responsive government records:

- **File Review** – Schedule a file review with the Department to directly access the records and take notes or tag records of interest for copying. Copying can be performed by either the Department's onsite Copying Unit at State duplication fee costs or by the requester employing a Copy Vendor Service. If there are records stored in archives, a five-day processing period will be included prior to scheduling a review.
- **Copy Request** – All records of interest will be copied by the Department's onsite Copying Unit at State duplication fee costs unless a Copy Vendor Service is employed.
- **Electronic Records Request** – Dependent on the size & nature of the e-records, the Department will email the records or provide a CD or DVD.
- **Fax Request** – Based on the number of pages, the Department faxes the responsive records.

Access to Government Records Under the New Jersey Open Public Records Act (N.J.S.A. 47:1A-1 et seq.)

- **Web Access** – The responsive records can be access directly through the Department’s web site. Web address will be provided.

1. The fees for duplication of a government record are specified below. We will notify you of any special charges, special service charges or other additional charges authorized by State law or regulation before processing your request. Payment shall be made by check or money order payable to the State of New Jersey and mailed to the address specified below.

Hard Copies: Letter & Legal size = \$0.05 per page
Oversized Maps (Color) = \$5.00 per map
Oversized Maps (B&W) = \$3.00 per map

Electronic Records: CDs = \$0.55 per CD
DVDs = \$0.55 per DVD

2. Pursuant to OPRA (C.47:1A-5c & C47:1A-5d), the Department will apply special service charge for any extraordinary expenditure of time and effort to accommodate a request. The special service charge will be based on the actual direct cost of providing the records. The requester shall have the opportunity to review and object to the charge prior to it being incurred; however, in the event the requester objects to the special service charge, the request will be closed and access to the records will not be granted.
3. By law, the Department must notify you that it grants or denies a request for access to government records within seven business days after the custodian of the record requested receives the request, provided that the record is currently available and not in storage. If the record requested is not currently available or is in storage, the custodian will advise you within seven business days when the record can be made available and the estimated cost. You may agree with the custodian to extend the time for making records available, or granting or denying your request.
4. You may be denied access to a government record if your request would substantially disrupt agency operations and the custodian is unable to reach a reasonable solution with you.
5. If the Department was unable to comply with your request for access to a government record, the custodian will indicate the reasons for denial on the request form.
6. Except as otherwise provided by law or by agreement with the requester, if the custodian of the record requested fails to respond to you within seven business days of receiving a request form, the failure to respond will be considered a denial of your request.
7. **Resolution of Disputed Findings:**

In the event that a requester does not agree with the Department’s record response, the requester should:

No Records - Reexamined the request details to evaluate if all of the information was provided that could aid the Department in locating records. The Department’s ability to identify records of interest is in direct correlation to matching the Department information with the information provided on the request. Such important identifiers are Facility/Site Name, Address, Case #, Permit #, Block/Lot.

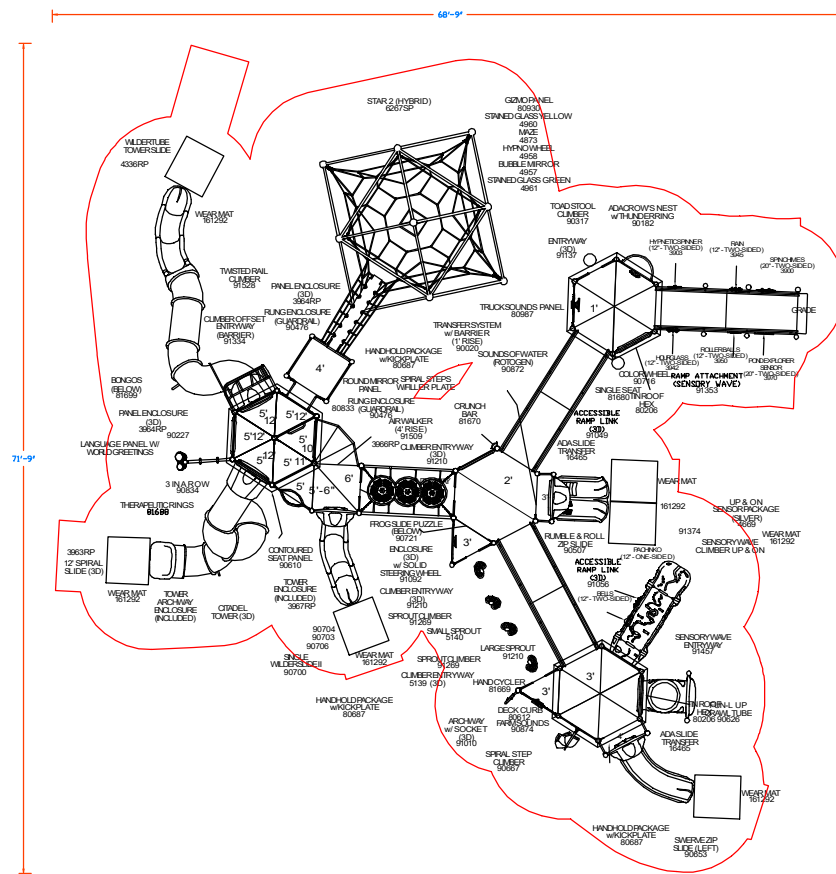

Denial - If your request for access to a government record has been denied or unfilled within the time permitted by law, you have a right to challenge the decision by the Department to deny access. The Department denies access to records only when those records do not meet the definition of a government record and/or public access is not allowed pursuant to the law. At your option, you may either:

- a. Contact the Office of Record Access to re-visit the matter or provide further explanation.
- b. Institute a proceeding in the Superior Court of New Jersey
- c. File a complaint in writing with the Government Records Council (GRC). You may contact the GRC by toll-free telephone at 866-850-0511, by mail at PO Box 819, Trenton, NJ, 08625, by e-mail at grc@dca.state.nj.us, or at their web site at www.state.nj.us/grc. The Council can also respond to other questions about the law.

8. Information provided on this form may be subject to disclosure under the Open Public Records Act.
