

# 2022 TOWN OF CLINTON Recycling, Garbage & Brush

## Clinton Has a Litter Problem

We discarded more than 50 bags of litter last April at the Town-wide cleanup day... and this is after the 26 bags we picked up during the clean up the previous October. What is worse, most of this litter comes from **Our Own Trash and Recycling**. Placing on the streets for pickup our plastic bags, our loose cardboard, and our garbage and recycling containers without lids is the primary cause. Birds and wild animals tear into your bags. Windy days tipple recycling containers. The result is that your garbage and recycling items tumble away or are whipped around by the wind, eventually landing in our streams and wooded areas.

## What You Can Do

There is an incredible simple fix. Just put your garbage bags and recycling items in containers that have lids that attach. On windy days, take a few extra seconds to consider the best placement for your containers that will minimize the potential for being blown over. And please remember that it is your responsibility to pick up your blown items, not the workers from Republic our garbage company. It is up to us to keep Clinton a clean and safe place!
